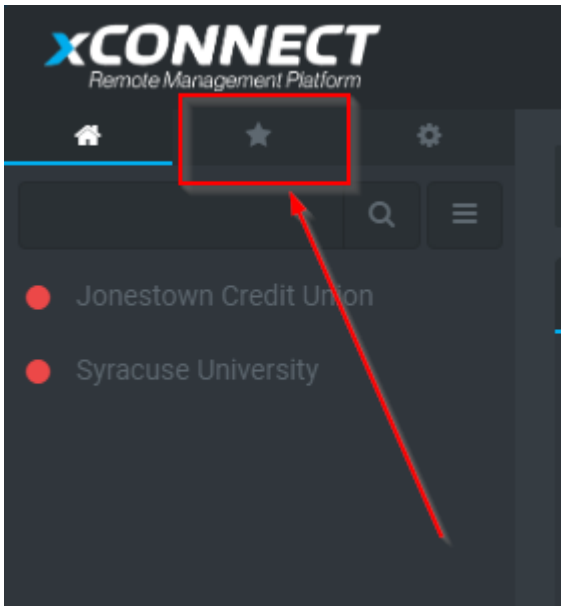
Bookmarks

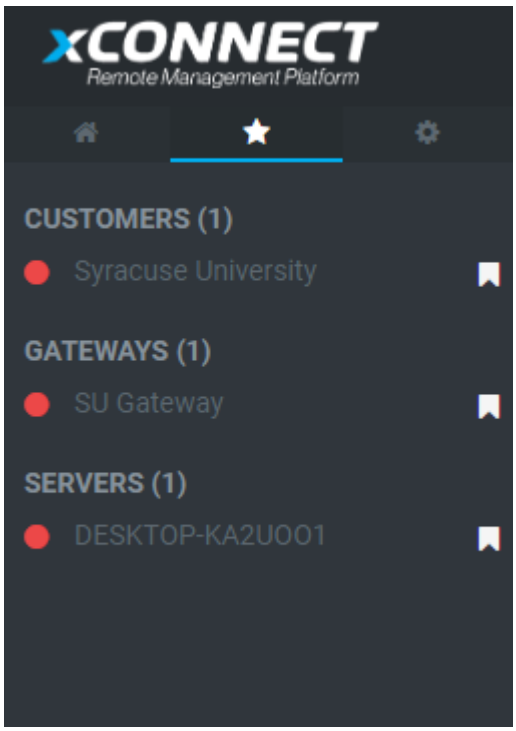
Bookmarks are a marker that can be placed on any customer, gateway, server or device that will make it appear on the Bookmarks menu. This can be completely customized and managed by the **power user**. Bookmarks are visible across **all** users of the account, **end users** cannot remove or add bookmarks.

Accessing Bookmarks

You can access bookmarks by clicking the bookmark icon on the left-side menu:

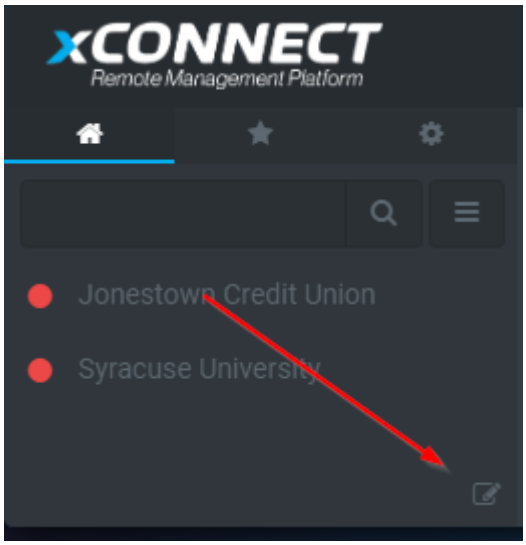


Once there you will see a complete list of your bookmarked assets. Upon clicking the asset, you will be taken to the appropriate dashboard.

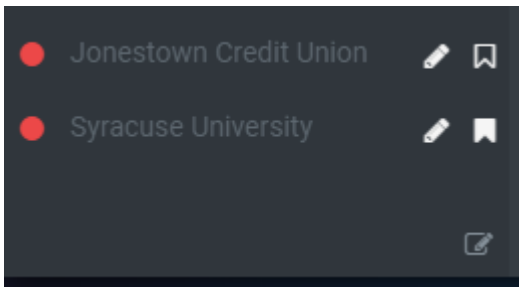


Adding or Removing a Bookmark

You can add or remove a bookmark by going to left-side menu, and clicking the edit icon



Once edit view is active, you will see the bookmark icons listed to the right of the menu items:



Clicking the bookmark icon will enable or disable the bookmark.

= Disabled bookmark (will not appear on your bookmark list)

= Enabled bookmark (will appear on your bookmark list)
